LEG CONFORMATION - a 15 point goat scale developed at Texas A&M University

LAMB USDA YG - yield grade system for lambs was applied to these carcasses; (10 X adjusted fat thickness) + 0.4

% BCTRC - % boneless, closely trimmed retail cuts from the leg, loin, rack and shoulder is calculated: $49.936 - (.0848 \times \text{hot carcass wt.}) - (4.376 \times \text{adj. fat thickness}) - (3.53 \times \text{body wall}) + (2.456 \times \text{loin eye area})$
