

# **2016 NBQA: Fed Cattle**

## **Transportation and Mobility Data**

Plant Name: \_\_\_\_\_

Location: \_\_\_\_\_

Date: \_\_\_\_\_ Shift: \_\_\_\_\_

Recording Institution: \_\_\_\_\_

Recorder: \_\_\_\_\_

## This image shows a full page of blank, lined paper. It features approximately 28 horizontal blue or grey lines spaced evenly apart, typical of notebook paper. The lines extend across the entire width of the page, leaving small margins at the top and bottom. There are no vertical lines, text, or other markings on the page.

## This image shows a full page of blank, lined paper. It features approximately 28 evenly spaced horizontal black lines across its entire width, providing a guide for handwriting or typing. The paper is otherwise completely empty, with no margins, text, or other markings.

**Transportation and Mobility Data Sheet – *Protocol***

Utilize one data sheet per truck

Please use blue pen when filling out data sheets

**Transportation and Cattle Information:**

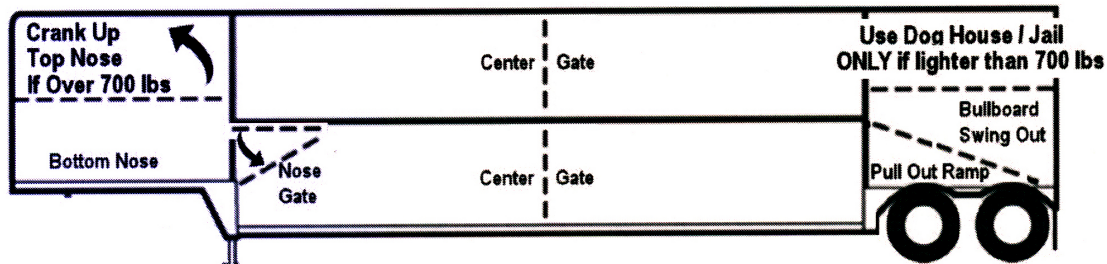

Sample size: 10% of trucks that arrive/day, with a minimum of 5 trucks.

Data recorders should visually observe the trailer type, number of compartments used, and whether or not the front and rear upper compartments and center gates are used.

Data recorders should interview the truck driver for the following items:

- Trailer dimensions
- Origin of cattle (city and state)
- When cattle were loaded
- Distance and time traveled
- If cattle were unloaded at any point during transit
- Number of cattle
- Gender of cattle – differentiate between steer, heifer, and mixed loads (also denote whether or not they were segregated if mixed loads)
- Number of dead and downer (non-ambulatory) cattle on the truck

## 2016 National Beef Quality Audit - Fed Cattle

### Mobility Scoring:

Sample size: Score 100% of cattle coming off the truck.

Cattle will be scored for mobility after exiting the truck once all four hooves have contacted the flat surface of the loading dock or alleyway. The NAMI cattle mobility scoring system will be used.

NAMI 4 point Scale see <https://www.youtube.com/watch?v=QlsIfHCvkpg>
